Roll No. HM-B2-2026-1037-296

Syed Muhammad Abdullah Shah

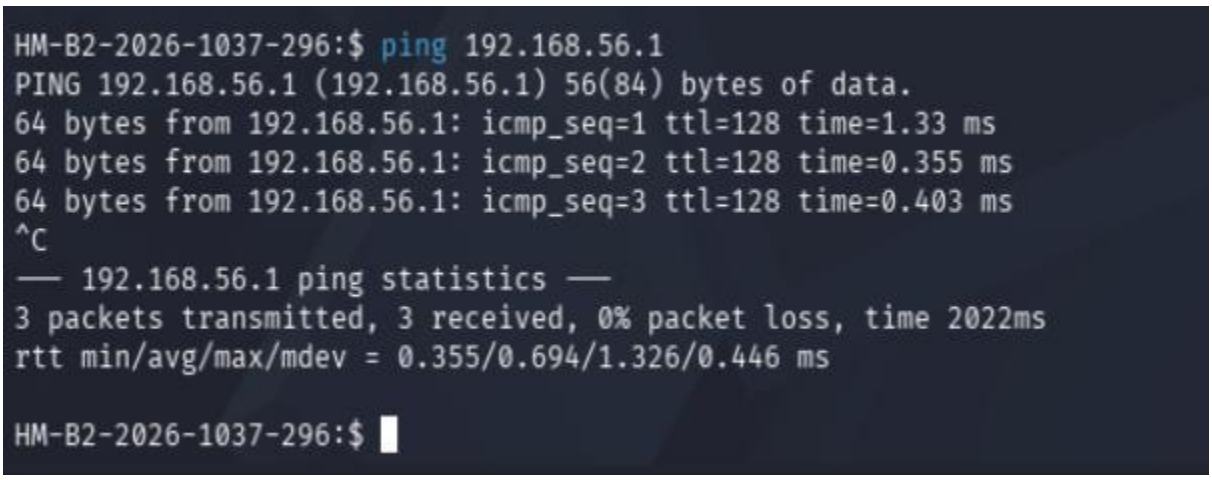

Q.1

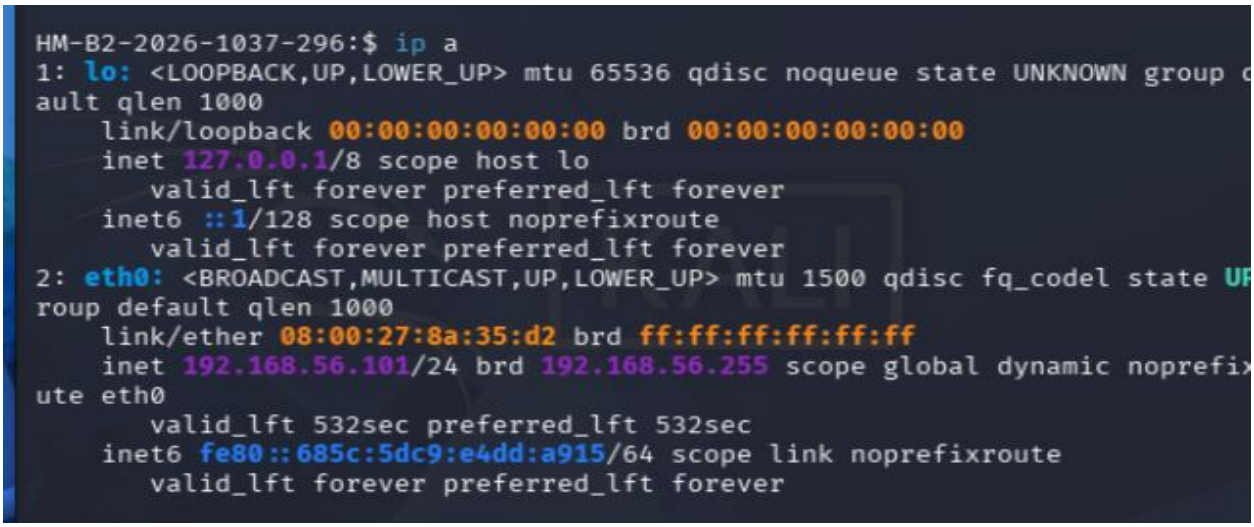

This is my windows IP I found using ipconfig

I kept failing to ping so I checked that Windows firewall was stopping so I turned it off and

Pinged it to check if I can send packets

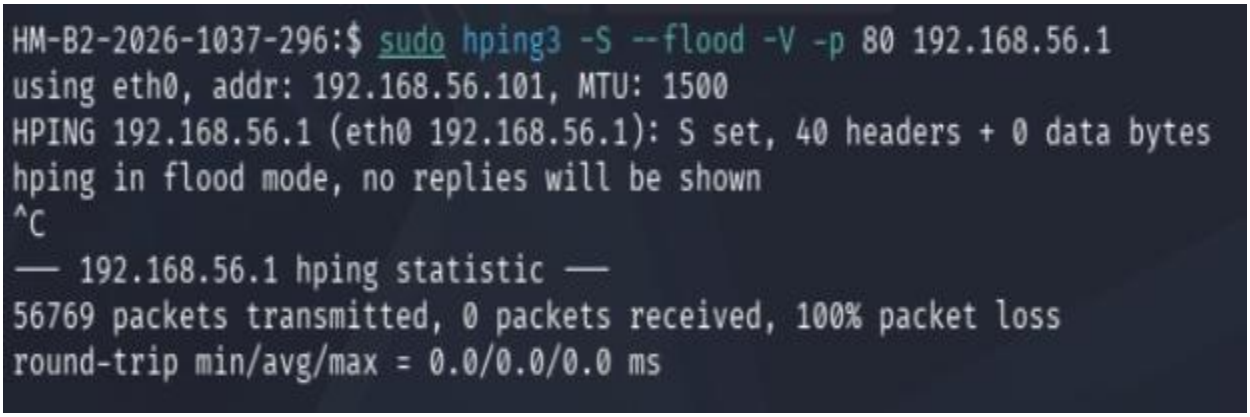

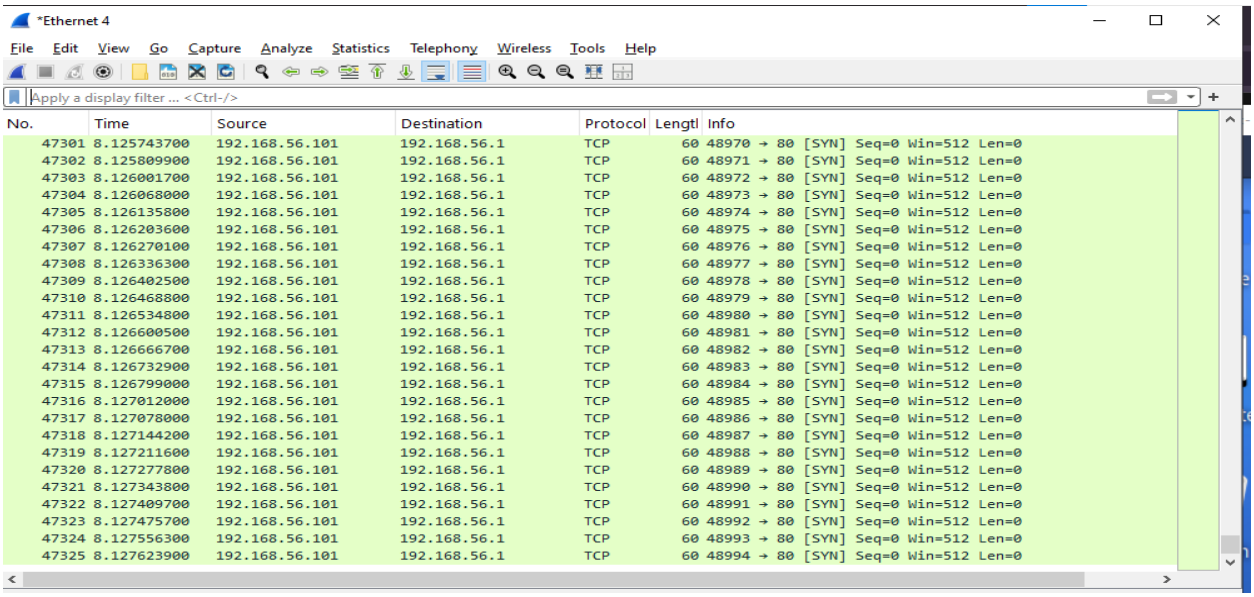

Kali Linux IP.

Q.2

Afterwards I performed Attack and sent many packets. It showed 100% packet loss because of flood mode. But all packets transferred. sudo hping3 -S --flood -V -p 80 192.168.56.1

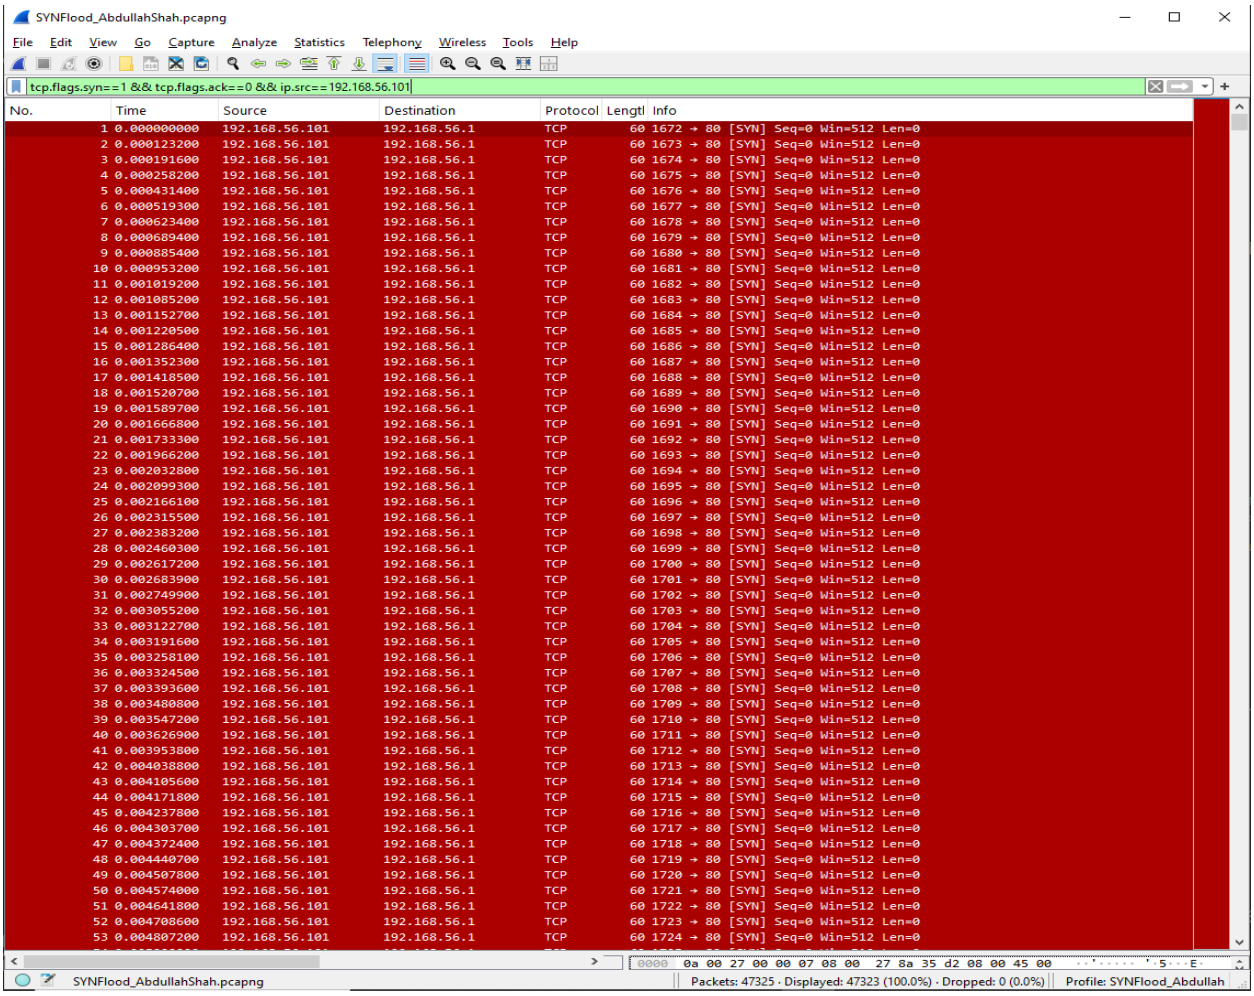

Q.3

I went to Configuration Profile and made new profile. After that I went to coloring rules, add filter tcp.flags.syn==1 && tcp.flags.ack==0 && ip.src==192.168.56.101 and add name and then set color to red.
